Subject index

Analysis
Determination of chlorbutanol in cosmetic products by electron capture gas chromatography, 265
The determination of N-nitrosodiethanolamine (NDELA) at trace levels in shampoos and skin creams by a simple rapid colorimetric method, 241
Anhydrosis; topical anhydrosis, Studies on the mechanism of, due to polyvalent cations. 29
Antioxidants; Antioxidants, Influence of pH and light on the stability of some, 125
Biological action; Biological products, A study of the action of, on the living cell by measuring the oxygen consumption, 69
Book reviews
Percutaneous Absorption of Steroids, P. Mauvais-Jarvis, C. F Vickers and J Wepierre, 97
International Union of Pure and Applied Chemistry, Applied Chemistry Division, Commission on Oils, Fats and Derivatives, 6th Ed., Part 1 (Sections I and II). Prepared for publication by C. Paquet, 97
Chromatography
Determination of chlorbutanol in cosmetic products by electron capture gas chromatography, 265
High pressure liquid chromatography of determining thioglycolic acid in cold wave fluids and depilating creams, 37
Comedolytic activity; hairless mouse, comedo, benzol peroxide. A new model for the assay of comedolytic activity, 23
Corneocytes; studies on isolated corneocytes, 251
Cosmetics
cosmetics on person perception. The effects of, 199
pyrrolidone carboxylic acid and the skin, 101
Dandruff; the effect of hair care products on, 233
Essential fatty acids; ^{14}C–γ-linolenic acid in hairless rats and man, A study of, 83
Hair
Hair care products on dandruff. The effect of, 233
neutral henna, *Cassia obovata*: A cosmetic senna, 211
Irritation; irritation potential of alkylsulphates, The inhibitory effect of some amphoteric surfactants, 57
Lanolin; lanolin and derivatives used in cosmetology. Cutaneous hypersensitivity tests in guinea-pig of, 115
Metabolism of hormones
androgen metabolism, skin, steroids, 9
metabolism of androgens in male pattern alopecia: a review, 1
Methodology
high pressure liquid chromatographic determination of thioglycolic acid in cold wave fluids and depilating creams, 37
new model for the assay of comedolytic activity, 23
Microbiology
microbial resistance; occurrence of mercury-resistant *Pseudomonas* in emulsion formulations preserved with phenylmercuric acetate, 259
scalp microflora; the effect of hair care products on dandruff, 233
Moisturization; pyrrolidone carbozylic acid and the skin, 101
N-nitrosodiethanolamine (DELA); The determination of N-nitosodiethanolamne (NDELA) at trace levels in shampoos and skin creams by a simple rapid colorimetric method, 241
Oxygen consumption; study of the action of biological products on the living cell by measuring the oxygen consumption, 69
Personality; person perception. The effects of cosmetics on, 199
pH; influence of pH and light on the stability of some antioxidants, 125
Photochemical; photochemical behaviour of sunscreens–benzlydene camphor and derivatives. Study of, 139
Skin
P-amino benzoic acid as a sunscreen and its behaviour on the skin, 49
cutaneous hypersensitivity tests in guinea-pig of lanolin and derivatives used in cosmetology, 115
human scalp skin, hair follicles, metabolism of androgens, testosterone male pattern alopecia (baldness), 1
studies on isolated corneocytes, 251
Skin penetration
percutaneous absorption and disribution of ^{14}C–γ-linolenic acid in hairless rats and man, 83
skin permeabiltiy, aspects of, 269
a study of the penetration *in vivo* through the skin of the rat of acid soluble collagen in solution in acid or mixed in a cosmetic cream, 159
Society of Cosmetic Scientists; Medal Lecture 1981. A report, 277

Stabiltiy; stability of some antioxidants, influence of pH and light on the, 125
Stratum corneum; studies on isolated corneocytes, 251
Sunscreens
Study of the photochemical behaviour of sunscreens–benzylidene camphor and derivatives, 139
sunscreen, p-aminobenzoic acid as a, and its behaviour on the skin, 49
Sun protection factors
correlation of spectrophotometric data with sunscreen protection factors, 185
determination of sun protection factors in the hairless mouse, 153
Surfactants; amphoteric surfactants, The inhibitory effect of some, on the irritation potential of alkyl-sulphates, 57
UV-A, UV-B
Correlation of spectrophotometric data with sunscreen protection factors, 185
Determination of sun protection factors in the hairless mouse, 153
